

THE "OTTAWA SPOTLIGHT"

(Weekly Review of National Affairs)
By M. McDougall

Ottawa, Oct. 31st.—A new session of the Dominion parliament will open on November 7th. Between the opening and the Christmas recess, both houses of parliament will discuss all phases of Canada's war effort, the progress that has been made in armaments Canada during the fourteen months since war was declared, and the war program for the future. Such a debate may well cover an extremely wide range of subjects but the main interest will unquestionably centre on the growth in size and efficiency of the three war services, the army, navy and air force and on the development of war industry. Since parliament adjourned there have been many changes in the war picture which is shifting so constantly. There have been the almost unrelenting and heavy air attacks on Britain, so magnificently withstood by the British air force and the civilian population; the successful counter attacks by the R. A. F. on the Nazi war machine in Germany and along the channel ports. There has been Japan's agreement with the Axis powers, and the measures of joint defence in progress between Canada and the United States. There has been the steady spread of sympathy and understanding among the people of the United States for the allied cause. All these things come before parliament and good and great importance have been strengthened confidence in ultimate victory and it will be a brighter even if still heavy and anxious atmosphere that parliament meets next week.

Among the many subjects which will come before parliament for discussion either before or after the Christmas recess will be the report of the Gardner mission to London on food and other supplies, and the wheat question, the St. Lawrence waterways project for which Canada has now appointed its minister, and the whole important question of financing the growing war expenditures.

Research Work for Air Force.—More than two million dollars have been donated for research in relation to air force problems. "After all," Major Power explained in a recent interview, "we are going to win the war by being more clever than the enemy and we can do that by intensive research." Through the nature of their work is naturally shrouded in secrecy, Canadian scientists are hard at work on research to aid all branches of the services.

The expenditure by the air department may reach \$200,000,000 for the year. An increase of about thirty million dollars has been caused by the gearing up of the Commonwealth Air Training Plan, the purchase of more aircraft from Canadian and United States factories (Britain was to have supplied these for the joint training plan) and for additional schools for Britain in Canada. Britain will later pay for costs which are rightfully hers to bear.

Canadian Parachute Troops.—Canada may train parachute troops, according to Mr. Power. Consideration is being given to the development of this branch of modern warfare "in preparations of the day when we can take the offensive."

The first class of air observers, fit and ready for service, have been turned out from the joint training school at Trenton, Ontario. Groups of air crew personnel will probably be going overseas at monthly intervals from now on. Owing to favorable weather conditions, the air minister has stated, the number of air training establishments in the three prairie provinces is about equal to the rest of Canada. He has further announced that new groups of airmen are reaching Canada from Australia and New Zealand to receive final instructions in Canadian Air Schools.

Canada Must Contribute On War Equipment.

In a speech at Ottawa, General Crerar, chief of staff, said of Canada's fighting men that "no better material for a matchless force can be found in the world." He said further, however, that Canada had some distance to go before supplies of armaments and equipment could be brought up to the level of the requirements of war or existing fighting man power. The trained efficient munitions worker was rendering a vital service to the defence of Canada. General Crerar spent some time in Britain, and he stressed firm confidence in the outlook for ultimate victory. "Given some thing approaching equality in numbers and armaments," he said, "there is no reason to doubt that the British

Empire forces in this war can meet and defeat the armies of Germany even more decisively, if that be possible, than they did in the Great War of 20 years ago."

Canada's defences on the Atlantic and Pacific, now under two "commanders" will be influenced by recommendations of the joint defence board, and decisions of military, naval and air leaders of both countries. Recent word from Washington says that establishment of a new base in Newfoundland will shortly be started. The prime minister recently surveyed defences in the East and West. MacDonald, one of the Pacific sea board. The new minister of defence for naval affairs, who will take his seat in the commons for the first time on November 7th has brought dynamic force into the direction of Canada's naval forces. With new anti-submarine patrol vessels launched at short intervals, six destroyers from those delivered by the United States added to the fleet, and two others being made in British yards, Canada's navy is growing head. During the next 18 months 10,000 men will be added to its personnel.

RED CROSS CANVASSERS COME THEIR DRIVE NEXT WEEK

Messrs T. S. Hughes, S. H. Crowther and T. E. Wright are the men in charge of the second canvas for funds to help carry on the work of the Red Cross Society which plays such an essential part in the comfort and health of our soldiers.

This committee will add to their list about 250 other men by whose help they plan to make a complete coverage of Strathmore and district. The canvas in Strathmore has been delayed in order to give farmers a chance to finish harvest operations. Now plans are being completed and they hope for your very generous contribution. All other provinces have gone over the top. The need is great—and growing—the cause is just. Free freely when the canvass calls on you.

L. H. Hiebert Revisits Strathmore After 23 Years

An interesting visit in the person of L. H. Hiebert of Trinidad, Wash., is renewing acquaintances in and around Strathmore.

In 1917 or 8 Mr. Hiebert came with a party of prospectors to land purchases from Chicago via St. Paul. The rate of 1c a mile being given the purchasers.

Mr. Hiebert selected land out of Strathmore where he purchased 200 acres which he continued to farm until 1916.

He then moved to Trinidad, Wash., where he took up fruit farming in which he is still occupied.

His orchard contains apples, pears, crab and cherry trees. Fruit farming like grain farming has its ups and downs.

Mr. Hiebert's last visit was in 1917 and he notes many changes, and many of the former friends moved elsewhere or passed over to the bourne from which no traveller returns.

Among the friends remaining Mr. Hiebert mentioned T. E. Wright, M. G. Barrett, George Bates, Mrs. Baker, Mrs. Watts and Mrs. Johnson of Nakama and Mr. Harry Shoolbrey.

Mr. Hiebert returned to his Trinidad home Saturday of last week.

Now we're engaged, Albert, you'll give a ring, what you? Ay! What's your number?

Bobby Koch Joins Calgary Stampedeers

Three cheers for Bobby. Bobby Koch has been signed on by the Calgary Stampedeers and is now attending school in Calgary.

Last Friday Marty Burke released Bobby on account of his being too young to stand strenuous sector line.

However on Monday, Edmonton Jimmy, a team sponsored by Chicago Black Hawks, wanted to sign Bob, but Coach Burke decided to keep him with the Stampedeers.

Bobby will attend Western Canada High School while playing hockey in Calgary.

He will return to Strathmore when the hockey season is over.

Lions' Club Arrange Bridge Series

Starting Wednesday, November 6th the Lions' Club is arranging a series of Bridge Parties to be held every Wednesday, except that evening preceding the Monthly Red Cross Drive Party.

The Parties will be held in Harmer Hall and Play is to commence at 8 pm.

The prizes will consist of cash of a percentage of the net proceeds, with a grand prize at the end of the series.

The Lions' Club hope for generous support.

TO-NIGHT IS DAN MCCOWAN OF BANFF HALLOWEEN THRILLS CAPACITY AUDIENCE

When all the younger children dress up in spooky costumes and parade from house to house where they are generally treated to candy, fruit, etc., and in many cases the host derives a much enjoyment out of it as the children do in seeing the weird costumes and guessing who's who.

If this innocent form of amusement was the extent of our Halloween celebration not one citizen would begrudge the small cost of the treats provided and the time spent in entertaining the young visitors.

Unfortunately in past years the older children and even the young men and women have endeavored and in many cases succeeded in turning this into a night of vandalism and senseless destruction.

At the present time every person, young and old has a responsibility and that is to assist in every conceivable way to win the war. So in behalf of the citizens of Strathmore we are appealing to the young people to refrain from destroying property or committing acts which will cause any unnecessary expense as money spent in this way could be used to a much greater advantage.

Again boys and girls, young men and women we appeal not only to your sense of decency but also to your patriotic spirit to co-operate with us at a time when we must all work together.

T. S. Hughes,
Mayor of Strathmore.

PRESIDENTIAL ELECTION, TUESDAY NOVEMBER 5TH

Time a drawing which the "Eleventh hour" in the Presidential election in the United States. The contest has been waged with vigor. Wilkie has been, now up now down and he has made a strong bid for victory.

President Roosevelt's record stands in high favor with a very large number of voters and his experience and forward looking judgment is acknowledged as a powerful point in his favor. Roosevelt? Wilkie?

Mr. Dan McCowan of Banff who has a national reputation on this continent as well as in England as a lecturer held the wrap attention of a capacity audience when he gave his illustrated lecture in Strathmore United Church Tuesday evening.

Honor To Dan McCowan.—Dan McCowan, author and naturalist, who delights to enlighten Banff Springs Hotel with lectures on the wonders of the Canadian Rockies, was recently made a Fellow of the Zoological Society of London. The honor was conferred on him after he delivered an illustrated lecture before the Society on his last visit to England. Dan says:—"My job is a perfect one. I can sell scenery to visitors and keep it too."

Mr. McCowan combines gifts rarely found in one lecturer viz. a pleasing voice, delightful humor, a wonderful apt description, an amazing understanding of the distinct and valuable of various animal and bird life, a very sympathetic appreciation of the marvellous beauties of nature, which lifts one's thoughts to the Divine Creator, and such an ardent vital love for all that he deifies, that his enthusiasm is easily imbibed by his hearers, and one finds oneself living in the scenes he displays.

His pictures of flowers, birds, animals, mountains and lakes and the native Indian, all so beautifully colored by Mr. McCowan, increased the interest Strathmore folk already have for the beauties of Nature's Wonderland in the Banff National Park. That Mr.

A select quartette, comprising Mrs. T. S. Hughes, Miss Graser, Rev. S. R. Hunt and Harold, with Mrs. Hunt at the piano rendered very tastefully, "Come Where My Love Lies Dreaming," and as "Santa Lucia" the voices in each case blending very nicely.

Mr. Patrick without whom a Strathmore Concert is not complete brought down the house with two humorous songs, "The Egg and The Occurrence," and "The Chicken Supper served by the Ladies was looked and very appetizing. The tables provided very inviting and were filled repeatedly.

The evening was a very successful one in every way.

RED CROSS NOYES

Contributions from Local Branch—Knitted supplies shipped to Headquarters for month of October are: 5 Balachava helmets, 1 pair mitts, 4 scarves, 42 V-neck sweaters, 10 turtle neck sweaters, 15 pair seaman's socks, 1 pair socks.

Teacher—Here you see the skull of a chimpanzee, a very rare specimen. There are only two in the collection in the anatomical museum and I have the other one.

McCowan is carrying on a very splendid and educating work by showing these beautiful pictures across the continent, all will agree.

Over 200 slides were shown. A warm vote of thanks couched in choice phrases was moved by Mr. T. M. Weave and heartily endorsed.

We had been aware that Lake Louise was the Province of Alberta named after a daughter of Queen Victoria, the Duchess of Argyll, when her husband was Governor General of Canada, but not before had we known that the Popples, which now grow in such profusion at Lake Louise are the outcome of seeds presented by Prince Louise Caroline Alberta.

The warm thanks of the people of Strathmore are due Mr. McCowan in being instrumental in securing Mr. McCowan to give his very delightful lecture in our town.

The Lecture was preceded by a brief but very entertaining musical program.

Stanley R. Hunt who presided as chairman, first introduced Miss Betty Bourn of Oda, now a student with Miss Green Hunt at Calgary Normal School. Miss Bourn on her cell delighted her hearers with her rendering of "Berceuse," by Gounod. Responding to the hearty applause she gave an encore. Abbie, by Gounod, accompanied on the piano by Miss Dorothy Graser.

Earth has not anything to show more fair;
Dull would he be of soul who could pass by
A sight so touching in its majesty:
This City now doth like a garment wear
The beauty of the morning; silent, bare,
Ships, towers, domes, theatres, and temples lie
Open unto the fields, and to the sky;
All bright and glittering in the smokeless air.
Never did sun more beautifully steep
In his first splendour valley, rock, or hill;
Ne'er saw I, never felt, a calm so deep!
The river glideth at his own sweet will;
Dear God! the very houses seem asleep;
And all that mighty heart is lying still.

The Red Cross held their regular meeting last Thursday at the home of Mrs. Watts with Mrs. Chilton and Mrs. Baker as hostesses. They decided to hold their Bazaar in the Community hall on November 10th and their annual meeting to be held on the 28th of November in the Community Hall. Everybody welcome.

Mr. and Mrs. Skogg and family of Thompson, Sask., were guests of Mr. and Mrs. Lay Wheeler over the week end. Mrs. Skogg is Mrs. Wheeler's sister.

Mr. Earle Baker was rushed to the hospital on Tuesday morning and was operated on for appendicitis. Everyone wishes Earle a speedy recovery.

Mr. and Mrs. Chilton spent the week end in Calgary.

The Farmer's Purchase—
A local farmer recently remarked that the cost of farm machinery and nearly everything the farmer had to buy was unreasonably high. He cited a binder which had more than doubled in cost over a period of years, with no improvement in the machine. Mass

production provided better cars, radios, etc., for less money, he said, and the same should be true of farm machinery. There must be some relief from the high costs of machinery, feeds and other requirements before the farmer will be able to prosper.

(INCUBATOR QUALITY)
KEROSENE**

Cleaner—burning, more efficient

ESSOLITE, the new kerosene recently developed in Imperial Oil research laboratories, is a distinctly different kind of kerosene. It is an incubator quality fuel and is so free from sulphur and other impurities that it burns with practically no odor and assures cleaner wicks.

In lamps and lanterns, Essolite burns with a brilliant, white, flickerless flame. In oil stoves, it gives a steady, uniform heat. In incubators, brooders and refrigerators, it burns safely and uniformly. Essolite Kerosene, now made in Imperial Oil refineries at Calgary and Regina from Turner Valley crude oil, really offers exceptional value, the value you expect in a high grade incubator oil, yet sells at the price of regular kerosene. Ask your Imperial Oil agent or dealer for Essolite.

Even the horses in countries occupied by the Nazis have been Germanized. **THERE'LL ALWAYS BE
AN EMPIRE**

(An extra verse to "There'll Always
Be an Empire")
There'll always be an Empire;
An Empire of the Free,
An Empire strong to drive out wrong;
To guard and rule the sea;
An Empire built by Britons
From every land and clime,
An Empire built on truth and right,
To stand the test of time.
What are you going to do
For Freedom and Justice, too?
Fight for the right with all your might
Britons, arise!
And this is true: Nations will honor
you;
Stick to your guns, batter the Huns,
Freedom's the prize!
Freedom of the Empire.
The noble flag's unfurled,
The Lion's roar from Britain's shore
Will echo round the world.

the earth.
We had believed that the last War

was fought to end War — that "The
Sword would be turned into the
Ploughshare," but alas!
The greed of nations, the lust for
power of individuals, and perhaps
short-sighted actions have combined
to plunge the world into an inferno
of fear, strife and sorrow.
We are assured that Victory Will Be
Ours and that Right Will Prevail but
what will be the cost we know not.
For these reasons we will assemble
this year in the Memorial Hall with
fuller hearts—deeper emotions and
mayhap utter the words of the hymns
with trembling lips — but surmount-
ing all — we will meet in a spirit of
confidence that God and The Right
Will Prevail.

**MR. JUSTICE HARVEY
AND PREMIER ABERHART**

It is a very disturbing development
that has arisen in recent days in Ed-
monton in Political and University
circles re the summary dismissal of
Chief Justice Harvey from the Board
of Governors of the University of Al-
berta.

Premier Aberhart will need to give
a more logical and evidence satisfy-
ing reasons before the doubt now ex-
isting in the minds of the majority
but there was not some ulterior mot-
ive, is cleared.

Mr. Justice Harvey and the people
of Alberta have a right to know the
facts, and the Premier will prove
himself a stronger man — if he states
them.

New Season?

The Independent group are still
pressing for an early session, and ru-
mor whispers that the Premier may
deem it advisable to accede to their
pressure. If so all parties will undoubt-
edly be on the alert and it will not be a
one sided discussion.

**Why the Red Cross is
in urgent need of funds**

Here are a few tasks the Canadian Red Cross must
tackle at once:

- 1 At the request of the British Red Cross, it has undertaken to provide 10,000 parcels of food each week from Canada for British prisoners of war in Germany. Canadians can thus help to lessen the strain on Britain's food supplies.
- 2 The Canadian Red Cross will provide, equip and co-operate with the Department of National Defence in maintaining a number of convalescent hospitals in various parts of Canada for use by Canadian soldiers, here and from overseas, who are sick or wounded.
- 3 The Canadian Red Cross will help to supply clothing and other necessities to the more than 100,000 evacuee children in Britain, and the 100,000 refugees from invaded countries who have sought shelter under the Union Jack. Many articles of relief clothing have been supplied, but another half million articles will be needed from Canadian Red Cross workrooms.
- 4 The Canadian Red Cross is sending an increasing flow of supplies for the alleviation of civilian suffering caused by enemy bombing of Britain.
- 5 As Canada's own armed forces grow, on land, on sea and in the air, the need for Red Cross service increases.
- 6 The Red Cross must be ready and fully equipped to meet any emergency at the moment it arises.

These are tasks you must not leave undone.
Support the Red Cross with all your heart.
